Solapur

Sub.: Report of Certificate Course in Plant Tissue Culture (2021-22)

The Certificate Course in Plant Tissue Culture (CCPTC) has been started to inculcate in students skill based education. Plant Tissue Culture industries and research centers need skill developed manpower and this course will enhance skills of tissue culture techniques. Plant tissue culture broadly refers to the in vitro cultivation of plants and various parts of the plants. Plant tissue culture is one of the most rapidly growing areas of biotechnology because of its high potential to develop improved crops. The techniques of plant tissue culture have largely helped in the green revolution by improving the crop yield and quality. Plant tissue cultures are associated with a wide range of applications—

1. production of pharmaceutical, medicinal and other industrially important compounds
2. Single cell clones are useful for genetic, morphological and pathological studies.
3. Embryonic cell suspensions can be used for large scale clonal propagation.
4. Somatic embryos from cell suspensions can be stored for long term in germplasm banks.
5. In the production of variant clones with new characteristics, a phenomenon referred to as somaclonal variations.
6. Production of haploids (with a single set of chromosomes) for improving crops.
7. Immature embryos can be cultured in vitro to produce hybrids, a process referred to as embryo rescue.

Benefits of Certificate Course in Plant Tissue Culture:

- This program will provides participants with the skills and knowledge to prepare tools, propagation materials and the workspace, use a range of tissue culture propagation techniques, understanding the appropriate growing environment, recording the propagation activities as well as researching plant material.
- Skills and knowledge gained in this course may lead to you to a career as: plant propagator, horticulture laboratory technician, botanist, plant nursery assistant/manager

Students were enrolled for CCPTC with full strength (In Take 25) for the batch 2021-22. Eligibility for enrollment for CCPTC is 12th passing and students from BSc-I have enrolled for the course. Students completing the course CCPTC were found more confident than other regular UG students observed during their regular BSc Biotechnology practical course. A few of the enthusiastic students from the batch have contacted Mr. Akshay Patil (Founder and Director, Callus Biotech Pvt. Ltd., Kolhapur) for his guidance and career opportunities in Plant Tissue Culture.

After completion of theory and practical syllabus of CCPTC, students appeared for University Examination of the course conducted by Skill Development Centre. The result of this course is 100%. The topper of the Batch (First rank holder) Ms. Gouri Totad was awarded with the certificate by Hon. Vice Chancellor Dr. Mrs. Mrunalini Fadnavis during first Convocation ceremony organized by Skill Development Center, PAH Solapur University. All the students completing the course have received mark sheet and certificate of completion from the University.

Report of Course (2021-22)

To,
The Principal,
V.G. Shivdare College of Arts, Commerce and Science,
Solapur

Sub.: Report of Certificate Course in Molecular Diagnostics (2021-22)

Dear sir,

The CCMD has been started to inculcate in students skilled based education. During Covid 19 pandemic, rapid testing and RT-PCR testing of individuals was done in masses. Considerably larger manpower was needed with desirable experience in clinical laboratories. Also, after the onset of pandemic, Ministry of skill Development and Entrepreneurship, Government of India initiated efforts across the country regarding skill development, up-gradation, building new skills so as to remove disconnect between demand and supply of skilled manpower.

In these regards, I discussed the view point with Dr. Abhijit Jagtap (Health officer, P.A.H. Solapur University, Solapur) and he guided me freely and openly about - how to start this course? What should be the content in the syllabus and so on. The course was approved by Skill Development Course, P.A.H. Solapur University, Solapur after submission of proposal to the University committee.

The course was started with the inaugural program on 11th December, 2021 and about 17 students of 25 total intake were enrolled for the course. The students enrolled for this course were benefited by getting the knowledge in methods and applications in clinical microbiology, serology, molecular testing of diseases, etc. The Students were also benefited by experiential learning during the practical courses and on the job training in Pathology/microbiology/molecular biology laboratories from Solapur regions. During the training in labs, the students who obtained better skills were offered recruitment in same lab by the respective agency.

After completion of theory and practical syllabus, students appeared for University Examination of the course conducted by Skill Development Centre. The result of this course is 100%. The topper of the Batch (First rank holder) is Ms. Sayali Dhumal and she was awarded with the certificate by Hon. Minister Shri. Chandrakantdada Patil (Revenue Minister of Maharashtra and member of the Maharashtra Legislative Council) during the first Convocation ceremony organized by SDC, PAHSUS. All the students completing the course have received mark sheet and certificate of completion.

Yours Sincerely,

PRINCIPAL
