

Best Practice

Patronization of students through economic support

We make every effort to create a model of education which is based on compassion and mindful living. Even though the institute is located in urban areas, most of our students come from rural areas and maximum students belong to poor families. Most of the students from economically backwards are unable to pay admission fees; so that they might be away from the educational canal. Institute has initiated support system which reflects its Vision and Mission. This scheme was introduced with the sole objective, that education should not be stopped due to lack of financial support. To bring them back to education we have implemented this scheme.

Also the institute supports the students from financially weaker section by providing them dress material (for girls-students) and sports kit (boy- students).
